

SHUBHAM SALES

Welcome to Shubham Sales. We are a renowned Sales and Marketing Corporation of solar and related electrical equipment in Pune.

Conventional forms of energy are fast depleting our natural resources at an astonishing rate. There is a crying need to harvest unending sources of energy like the solar energy.

We have been advocating the use of solar-powered equipment's for a long time and we offer high quality solar-powered products, like solar hot water system and P.V.System etc., at affordable costs.

We understand the issues faced by a working-class household which have to cope with untimely outages of basic utilities like water and electricity. To help them overcome these difficulties, we provide a range of household equipment's like, Gas Geysers, Inverters, Generators, Induction Cookers, and Water Purifiers.

To help conserve a precious natural resource – water – we provide complete set up for Rain Water Harvesting. We also provide chemicals and other accessories for swimming pools.

Our services for all types of plumbing and electrical work are most reliable.

ABOUT

Shubham Sales is the brainchild of Ms. Jyotsna Godbole. Started in the year 2000, this business venture is the culmination of a long, hard journey by Jyotsna.

Jyotsna Godbole is a name synonymous with relentless grit and perseverant determination. After completed Electronics Engineering from the small town of Sangli in Maharashtra, she arrived in Pune to find a job and to chart a career. Although she found a job and did it to gain valuable experience , she found it difficult to enjoy it. Her inherent entrepreneurial instincts wouldn't let her be content with her job.

It was during this time that she decided to become an entrepreneur and start her own small venture. Starting with selling ladies' fashion accessories, she gradually gained the confidence and the marketing expertise to take the next step. She then took up sales and marketing of products like PC Monitor Anti-Glare Screens, Three minute telephone disconnecter etc.

During this time, she learnt the skills of making solar equipment's from a family friend. Her previous marketing skills helped her immensely during this time and she decided to take on the business of marketing of solar and related electrical equipment's.

With a dedicated team of around 10 people, Shubham Sales takes pride in serving every customer uniquely and efficiently. High quality of products at an extremely affordable rate, timely service and prompt after-sales service are the hallmarks of the company. We believe that our customer becomes part of our ever-expanding family and it becomes our sincere obligation to look after their needs long after they have purchased the product.

Check out our Products and Services Page for more details.
